

ROUTE #2. BETWEEN TWO MOUNTAIN RANGES

Pico del Águila (Olocau) and Oronet (northern slope)

- High**
- 118 Km**
- +1.367 m**
- 4h 30'**
- All year**
- Low**

DESCRIPTION

We will look into the heart of Sierra Calderona passing through typical towns of the interior of Valencia and surrounded by Mediterranean forest. We will ride on very quiet roads. Ascension to Eagle Peak is long but the percentage is moderate so it is suitable for any moderately prepared cyclist or to the most tenacious. The Oronet by its northern slope is always a nice mountain pass with the sea and the views are a pleasure for the senses.

CULTURAL AND TOURIST PLACES

Garbí. You cannot miss the viewpoint of this Natural Parc from this peak. From Pico Oronet if you take a diversión, you will get some extra km of ascent and you could enjoy a fantastic view of the entire Bay of Valencia, Castellón and the impressive Sierra de Espadán.

Segorbe. The village of Segorbe is immersed in a fertile plain, washed by the Palancia river. Its medieval layout conceals several architectural gems, like the cathedral, and the vestiges of the ancient Wall and the remains of the medieval castle.

STOP & GO

Legend

- Drinking fountain
- Restaurant-Bar
- Repair and cycling shop
